

Trench Diggers / Trenchers

Code : A-TDD

AGROVISION TRACTOR TRENCH DIGGER cuts with a digging chain that is driven around a rounded metal frame, or boom.

Advantage

- » AGROVISION TRENCH DIGGER can cut narrow and deep trenches.
- » The angle of the boom can be adjusted to control the depth of the cut.
- » To cut a trench, the boom is held at a fixed angle while the machine creeps slowly.

Features

- » Heavy Duty frame & Structural framework brings in greater strength & stability.
- » Reliable & heavy duty hydraulic cylinder that works under varying work conditions.
- » Easy Depth adjustment.
